# DISCLAIMERS:

- 1. Recording time may vary based on recording resolution & quality, lighting conditions and movement in the scene.
- 2. HDMI output (1920x1080) for high definition multi-channel live viewing only. High definition recording not supported, recording resolution is limited to a maximum of 960x480 per channel. Image quality and resolution is dependent on the type of camera connected to the DVR.
- 3. When used with 960H compatible cameras. DVR is backwards compatible and supports different camera inputs: standard resolution and 960H.
- 4. Requires a high speed internet connection and a router (not included).
- 5. IR Illumination range under ideal conditions. Actual range and clarity may vary depending on scene/object reflection and camera application. Measurements are calculated using ambient lighting and total darkness conditions. Picture automatically switches to B&W delivering better clarity in ow light conditions.
- 6. Field of view, diagonal. If light level is too low, camera will switch over to B/W for increased light sensitivity.
- 7. Not intended for submersion in water. Installation in a sheltered location recommended.
- † Smart Phone & Tablet Compatibility: iPad®, iPhone®, BlackBerry (supported model numbers: 9800, 9700, 9000), Android (version 1.5 & above), Windows Mobile (6.0, 6.5), Symbian 3rd & 5th generation phones. Mobile phone data plan is required (not included). Router port forwarding required. For the latest compatibility list check www.lorextechnology.com as new models become available in the market.
