Package Contents

• 1080p HD Bullet Security Camera
• Mounting Kit*
• BNC / Power Extension Cable*
• Power Adapter**

* Per camera in multi-camera packs.
** A multi-camera power adapter that provides power to multiple cameras or individual power adapters may be provided depending on product configuration.

ATTENTION:
A REGULATED UL / CSA APPROVED power supply is REQUIRED for use with this camera (included). Use of a non-regulated, non-conforming power supply can damage this product and void the warranty.

Safety Precautions

• Read this guide carefully and keep it for future reference.
• Follow all instructions for safe use of the product and handle with care.
• Use the camera within given temperature, humidity and voltage levels noted in the camera’s specifications.
• Do not disassemble the camera.
• Do not point the camera directly towards the sun or a source of intense light.
• Use only the supplied regulated power supply provided with the product. Use of a non-regulated, non-conforming power supply can damage the product and void the warranty.
• Periodic cleaning may be required. Use a damp cloth only. Do not use any harsh, chemical-based cleaners.
• The supplied cable is rated for surface mounting only. Cables for in-wall and floor-to-floor installations are sold separately (CMR type). These and other cables are available at lorex.com

Installation Tips

• Point the camera where there is the least amount of obstructions (i.e., tree branches).
• Install the camera where vandals cannot easily reach.
• Secure cabling so that it is not exposed or easily cut.
• This camera is rated for outdoor use. Installation in a sheltered location is recommended.

Disclaimers

• For a full list of compatible recorders, visit lorex.com/compatibility
• Not intended for submersion in water. Installation in a sheltered location recommended.
• This camera includes an Auto Mechanical IR Cut Filter. When the camera changes between Day/Night viewing modes, an audible clicking noise may be heard from the camera. This clicking is normal, and indicates that the camera filter is working.

Quick Start Guide

To install your camera:

1. Set the camera in the desired mounting position and mark holes for screws through the camera base.
2. Drill the holes, then feed the cable through the mounting surface or cable notch.
3. Mount the camera stand to the surface using the provided screws. Make sure all screws are fastened tightly.

**NOTE:** Insert the included drywall anchors if you are mounting the camera onto drywall.
4. Use a Philips head screwdriver (not included) to loosen the adjustment screw.
5. Adjust the position of the camera as needed:
   - **A. ROTATING THE ARM:** Rotate the camera stand up to 360°.
   - **B. BENDING THE ARM:** Bend the arm of the camera up to 90°.
   - **C. LEVELING THE CAMERA:** Rotate the camera until it is level with the viewing area, then tighten the adjustment screw.
6. Tighten the adjustment screw when finished.
7. Remove the vinyl film from the camera lens when your installation is complete.

---

### Troubleshooting

**Problem** | **Solution**
--- | ---
No picture / signal | - The cameras are only compatible with certain Lorex HD DVRs. For the full list of compatible recorders, visit lorex.com/compatibility
| - Ensure your TV or monitor is on the correct input channel. Common terms for input channels: INPUT, AV CHANNEL, LINE1, LINE2, AUX.
| - Ensure your DVR is properly connected to your TV or monitor.
| - Ensure connections are properly connected.
| - Ensure the camera power supply is plugged in.

- Bright spot in video when viewing camera at night | - Night vision reflects when pointing a camera through a window. Move the camera to a different location.

---

### Cable Extension Options

Extend the cable run for your camera depending on the cable type used. Additional extension cables sold separately. See table below:

<table>
<thead>
<tr>
<th>Option</th>
<th>Cable Type</th>
<th>Max Cable Run Distance</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Lorex model MCBL-60BNCU / MCBL-60BNCU2 BNC Cable (included with camera)</td>
<td>60ft (18m)</td>
</tr>
<tr>
<td>2</td>
<td>‘RG59’ or ‘Coax’ or ‘Coaxial BNC’ Siamese (Video and Power)</td>
<td>300ft (91m)</td>
</tr>
<tr>
<td>3</td>
<td>‘RG59’ or ‘Coax’ or ‘Coaxial BNC’ (Video Only)*</td>
<td>800ft (242m)</td>
</tr>
</tbody>
</table>

**NOTES:**
1. The extension cable must be a single stretch of cable between the DVR and camera. You cannot connect multiple extension cables to each other.
2. For cable runs above 300ft (91m), you must connect the power adapter directly to the camera, rather than at the end of the extension cable.
3. Indicators that your cable run may be too long:
   - Video is permanently black & white (even during day time).
   - Video is unclear, soft, or distorted.
4. For more information on extension cables, visit lorex.com.

---

### Connecting the Camera

1. Connect the male power head and the BNC connector to the camera.
2. Connect the BNC connector to a video input on your DVR.
3. Connect the female power head to the included power adapter.

---

### Installing the Camera

**ATTENTION:**

Test your camera prior to selecting a permanent mounting location by temporarily connecting the camera and cable to your DVR.

**Before Installing the Camera**

- Decide whether to run the cables through the wall / ceiling (drilling required) or along the wall / ceiling.
- If you run the cables along the wall / ceiling, you must run the cable through the **cable notch** on the base. This will keep the camera base flush to the surface when mounted.
