**Wall Mount Installation**

**WARNING** - Wall mount is required for outdoor installation. **Camera is not weatherproof without the wall mount.**

**Wall Mount Contents**

- 1x Pendant Cap
- 1x Wall Mount Bracket
- 4x Bracket Screws (pre-attached)
- 4x Wall Mounting Screws and Anchors (pre-attached)
- 3x O-rings (spare)
- 3x O-rings (spare)

**Installation**

1. Make sure the O-rings (3x) are attached to the top of the pendant cap (spares are included). Firmly insert the pendant cap on to the wall mount bracket and twist to tighten all the way. Insert the bracket screws (3x) to secure pendant cap to wall mount bracket.

2. Use the back of the wall mount to drill holes for the mounting screws. If you are running cables through the wall, also drill a hole for the cables. Run the single end of the cable through the wall mount and attach the wall mount to the wall using the wall mounting screws (4x).

   **NOTE:** Use the included anchors if installing in drywall.

3. Rotate the camera dome cover counterclockwise to remove.

4. Remove the base attachment screws (3x) and remove the camera from the camera base.
Installation (Continued)

5. Remove the rubber plug on the bottom of the camera base and run the single end of the cable through the bottom of the camera base. Attach the camera base to the pendant cap using the camera attachment screws (4x).

6. Connect the cable to the camera (see the camera instruction manual for details).

**WARNING** - Make sure power is disconnected before connecting the cable. Camera will begin moving immediately when power is connected.

Attach the camera to the base using the base attachment screws (3x) then reattach the dome cover by rotating it clockwise.

7. Remove the protective vinyl sheet from the dome cover.

**Dimensions With Camera (mm)**

- Width: 187.65 mm
- Height: 83.88 mm
- Depth: 142.23 mm
- Weight: 1.4kg / 3.0lbs.
