- Quick Start Guides

Connecting your system

1. Monitor/TV*
2. Mouse
3. Router*
4. Cameras*
5. Power

For best performance it is recommended to use a 1080P monitor/TV and set the DVR's output resolution to 1920x1080. See the instruction manual for details.

8 channel configuration shown. 4/16 channel will have the respective number of video inputs. For camera compatibility information, visit www.lorextechnology.com/support

*Not included/sold separately

This system features automatic firmware upgrades for enhanced functionality. It is required to upgrade your system to the latest firmware version.

If a firmware upgrade is available:
1. After startup, a notification will appear asking you to upgrade the firmware. Click OK to upgrade.
2. The system will download and install the firmware upgrade. Wait for the firmware update to complete. The system may restart during the firmware upgrade process. DO NOT power off or disconnect the power cable during firmware installation.

Using the mouse

1. **Left-click:**
   - Click to open the Navigation Bar. Right-click to close the Navigation Bar.
   - During split-screen display mode: Double-click an individual channel to view it in full-screen. Double-click again to return to the split-screen display mode.
   - While navigating menus: Click to open a menu option.

2. **Right-click:**
   - During live view: Right-click anywhere on the screen to open the Quick Menu.
   - Within system menus: Right-click to exit menus.

Using the Quick Menu
Right-click to open the Quick Menu.

- View 1
- View 4
- View 8
- View 9
- Pan/Tilt/Zoom
- Camera Setting
- Info
- Sequence
- Search
- Disable Beep
- Save
- Manual
- Main Menu

Setting the date and time

1. In live view, right-click and click **Main Menu**.
2. Log in using the system user name (default: `admin`) and password (default: `000000`).
3. Click Setting and select the **Date&Time** tab.
4. Click **General** and select the **Date&Time** tab.
5. Click **Apply** to save changes.

It is important to set the correct time to ensure accurate time stamps on video recordings.

Playback and search

1. From live view, right-click and then click **Search**.
2. Log in using the system user name (default: `admin`) and password (default: `000000`).
3. Use the calendar on the right to select the date to playback.
4. Use the drop-down menus to select the channels you would like to playback. Click the display options ( ) to playback multiple channels simultaneously.
5. Click inside the video bar to select the playback time. Playback starts immediately at the selected time.

If the system is beeping after startup, the Ethernet cable may not be connected or the system may not be connected to the Internet.

*To stop the beeping:*
1. Connect an Ethernet cable from the system to your router and restart the system. **OR**
2. Right-click and click **Disable Beep**.
