Connecting your System

1 Power

2 Monitor/TV*

3 Router*

4 Cameras**

5 Mouse

For the best video output this DVR can provide, you must use it with a monitor/TV that supports 1080p resolution (or above).

Extension Cable*

The extension cable must be a single stretch of cable between the DVR and camera. You cannot connect multiple extension cables to each other.

Firmware Update

This system features automatic firmware upgrades for enhanced functionality. It is required to upgrade your system to the latest firmware version.

If a firmware upgrade is available:

1. After startup, a notification will appear asking you to upgrade the firmware. Click OK to upgrade.
2. The system will download and install the firmware upgrade. Wait for the firmware update to complete. The system may restart during the firmware upgrade process.

Important: Do not power off or disconnect the power cable during firmware installation.

Beeping

If the system is beeping after startup, the Ethernet cable may not be connected or the system may not be connected to the network.

To stop the beeping:

1. Connect an Ethernet cable from the system to your router.
2. Right click and click Disable Beep.

Remote Control

For the best video output this DVR can provide, you must use it with a monitor/TV that supports 1080p resolution (or above).

8 channel configuration shown. 4/16 channel will have the respective number of video inputs. For camera compatibility information, visit www.lorextechnology.com/support.

*Not included/sold separately
**Cameras are included only with bundled systems. Stand-alone systems do not include cameras.

Using the Mouse

1. Left-click:
   - During split-screen display mode: Click an individual channel to view it in full-screen. Click again to return to the split-screen display mode.
   - While navigating menus: Click to open a menu option.

2. Right-click:
   - During live view: Right-click anywhere on the screen to open the Quick Menu.
   - Within system menus: Right-click to exit menus.

   **Note:** In live view, hover the mouse cursor over the bottom of the screen to open the Navigation Bar. Move the mouse cursor away from the bottom of the screen to close the navigation bar.

Using the Quick Menu

Right-click to open the Quick Menu.

- View 1
- View 4
- View 8
- View 9
- Pan/Tilt/Zoom
- Camera Setting
- Info
- Sequence
- Disable Beep
- Search
- Manual
- Main Menu

Select camera/live display view
Control PTZ cameras (not included)
Adjust camera color settings
View system information
Start/stop sequence mode
Disable current audible warning
Search and playback recordings
Open manual recording controls
Open Main Menu

Setting the Date and Time

1. In live view, right-click and click Main Menu.
2. Log in using the system user name (default: admin) and password (default: 000000).
3. Click GENERAL and select the Date&Time tab.
4. Enter the current time and select your time zone, and click OK.
5. Click Apply to save changes.

   **Note:** It is important to set the correct time to ensure accurate time stamps on video recordings.

Search & Playback

1. From live view, right-click and then click Search.
2. Log in using the system user name (default: admin) and password (default: 000000).
3. Use the calendar on the right to select the date to playback.
4. Use the drop-down menus to select the channels you would like to playback. Click the display options ( ) to playback multiple channels simultaneously.
5. Click inside the video bar to select the playback time. Playback starts immediately at the selected time.

Quick Access to System Information

To quickly open a window that displays vital system information such as device ID, firmware version, device IP address, etc.:
- Press the ENTER button on the front panel.
- Right-click to open the Quick Menu and click Info. If prompted, enter the system user name (default: admin) and password (default: 000000).
