

Remote Access Guide

Remote access to your security system with apps for PC, Mac, iOS, and Android

N881 Series

STEP 1: Find your Device ID

The **Device ID** is printed on a label on the top panel of the recorder.

Record your information below:

DEVICE ID: _____

STEP 2A: Smartphone / Tablet Setup

a Install the free **Lorex Cloud** app from the App Store or Google Play Store.

b Tap the **Lorex Cloud** icon to open the app.

d Tap **DVR/NVR/IP Camera**.

e Configure the following:

1 Tap **Scan QR Code** and line up the QR code on the top of the recorder using the camera on your smartphone or tablet.

OR under **Device ID**, manually enter the Device ID printed on the label.

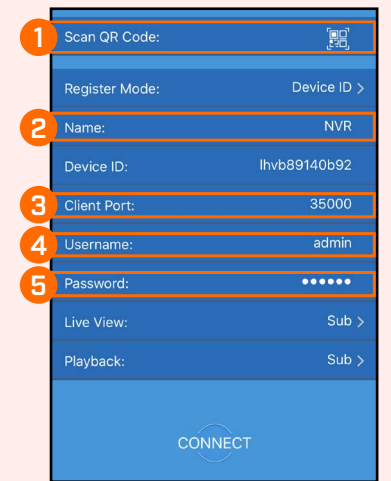

2 **Name:** Choose a name for your system of your choice.

3 **Client Port:** Enter the client port (default: **35000**).

4 **Username:** Enter the recorder's username (default: **admin**).

5 **Password:** Enter the secure password you recorded on the **Quick Setup Guide**.

EXAMPLE

f Tap **Connect**.

g The app opens in Live View and streams video from all connected cameras.

Congratulations! You can now view video from your cameras on your smartphone or tablet.

STEP 2B: Lorex Cloud Overview

The following is a brief overview of the controls available on the Live View screen of the Lorex Cloud app. For complete app instructions, see the Lorex Cloud manual on your product page at lorex.com.

- A Main menu**
- B Viewing modes**
- C Snapshot:** Tap to save a still image of the live view to your mobile device.
- D Pan/Tilt/Zoom (PTZ) controls:** PTZ cameras only. Tap to move and configure PTZ cameras.
- E Mute / unmute**
- F Two-way audio:** Two-way audio cameras only. Tap, then speak into your mobile device's microphone. Tap again to listen in.
- G Quick playback:** Tap to play back the last 30 seconds of recorded video.
- H Video quality:** Tap to switch between HD and standard video quality.*
- I Alarms:** Tap to activate an alarm output device (not included).
- J Fisheye:** Fisheye cameras only. Tap to open fisheye camera controls.
- K Color settings:** Tap to access color controls for the currently selected camera.
- L Manual recording:** Tap to record the current live view. Tap again to save the clip to your mobile device.
- M Connect / disconnect all:** Connect to/disconnect from all previously added cameras.
- N Favorites:** Tap to quickly bring up a group of cameras in Live View.
- O Siren:** Deterrence cameras only. Tap to enable the camera's siren.
- P Warning light:** Deterrence cameras only. Tap to manually enable the white light.
- Q Device list:** Tap to open a list of devices. You can use the Device List to open multiple systems or cameras at once.

Before You Start:

- **This guide is for users who wish to view their security system remotely using mobile apps. If you plan to only view and configure the system locally, you may skip this guide.**
- Make sure you have a router and high-speed Internet access (not included).
- Connect your recorder to your router using an Ethernet cable (see the **Quick Setup Guide [Guide 1/2]** for details).
- Ensure your recorder is up-to-date with the latest firmware version.
- Please note that the following minimum upload speeds are required for remote video streaming:

- **5 Mbps** for 4K video.
- **3.5 Mbps** for lower resolutions.

Up to 3 devices may connect to the system at the same time.

Troubleshooting

If you are having trouble connecting, try the following:

- Restart the recorder by disconnecting the power adapter, then reconnecting it.
- Ensure the recorder is connected to the router using an Ethernet cable and then restart the recorder.
- Double check the Username, Password, and Client Port.
- Ensure your recorder has the latest firmware.
- Ensure your mobile app is up-to-date.

Default access information:

- Default Username: **admin**
- Password: See the **Quick Setup Guide** for the password created upon initial setup.

Default system ports:

- HTTP Port: **80**
- Client Port: **35000**

If you have forgotten your password, contact Lorex technical support.
